EDUCATION

Seoul National University

B.S. in Computer Science & Engineering

Posung High School

Seoul, Republic of Korea

SKILLS

Vibe coding

Python

Java

C++

ABOUT ME

A Computer Science & Engineering student at Seoul National University with a strong work ethic and a rockstar spirit inside. I push myself hard, stay curious, and bring energy to everything I take on. My ambition is simple: to keep growing until I become an icon in my field.

EXPERIENCE

Standard Education

Building a solid academic and technical foundation through coursework and practice.

ACTIVITIES & PROJECTS

Captain — CSE Soccer Team

Leading and organizing the Computer Science & Engineering department soccer team.

Sound-Analyzing AI Benchmark (in progress)

Developing a benchmark for evaluating AI models on sound analysis tasks.

COURSES PLANNED

- Mechanical Engineering
- Algorithms
- Computer Structure
- and more
